

Shivank Sharma

+91-8265820722 | shivanksharma013@gmail.com

EDUCATION

ABES ENGINEERING COLLEGE, AKTU

BACHELOR IN TECHNOLOGY (CS)

2018-2022

CGPA- 8.4

HIGHER SECONDARY

2016-2018

St thomas English Medium School

Percentage-92.75

COURSEWORK

Data Structures and Algorithms

Object Oriented Programming

Database management system

Operating Systems

SKILLS

PROGRAMMING

Proficient with

ReactJS • TypeScript • JavaScript

Redux • Python • Django • GenerativeAI

C • C++ • Git • MySQL • HTML • CSS

Agile Development • Jest

Familiar with:

NodeJS • AWS • GCP

TOOLS/APPLICATIONS

Visual Studio Code • PyCharm • Jira

ACHIEVEMENTS

Employee of the month for November 2023

Google Cloud Certified Associate Cloud Engineer

HACKERRANK Problem Solving Intermediate Certificate.

GOLD BADGE on **HACKERRANK** in Problem Solving

Creative head of College technical Club

Played at National and regional level in Volleyball

WORK EXPERIENCE

HASHEDIN BY DELOITTE | SOFTWARE ENGINEER - I

Aug 2022 - Present | Bengaluru, India

- Developing a **Chrome extension/plugin** using **JavaScript** designed to spy on element properties and generate a data dictionary in Excel.
- Configured **WebSockets** with **Django Channels** to send real-time property data to the UI, ensuring efficient data communication.
- Simplified data extraction and analysis processes, saving functional teams significant time, improving productivity by **50%**
- Spearheaded the creation of REST APIs using **Django REST Framework** to manage **Azure Blob Storage** interactions and facilitated seamless integration with Microsoft Teams via **GraphAPI**.
- Enhanced data management efficiency and streamlined team collaboration, resulting in a **20%** improvement in workflow productivity.
- Engineered **user interfaces** for a life sciences and healthcare product, utilizing **React** for optimal performance and usability.
- Implemented major functionalities such as PDF uploads, dynamic data graphs, advanced filtering options, and comprehensive reporting tools.
- Ensured seamless **API integration** for dynamic and responsive UI components.
- Delivered a user-centric interface that improved user satisfaction by **30%**, driving customer retention and engagement.
- Conducted rigorous testing for all components, achieving over **85%** test coverage using **Jest** and **React Testing Library**.

HASHEDIN BY DELOITTE | SOFTWARE ENGINEER INTERN

Jan 2022 – Aug 2022 | Bengaluru, India

- During my 7 months internship, I was exposed to several tools and technologies like HTML, CSS, Typescript, React, Java springboot, Python, Django and Angular.
- Worked as a **Full stack dev(React and Django)** on a product and led the product team to top 5 out of 25.

TECHNICAL PROJECTS

NETFLIX - GPT | GITHUB | LIVE LINK

- Find content using natural language queries for an intuitive search experience using GPT Search.
- Secure user authentication and real-time data handling using firebase.
- TailwindCSS to create a sleek and responsive design.
- Used **React, Redux, TailwindCSS, Firebase**

NATURAL LANGUAGE TO SQL TOOL | GITHUB

- The tool takes input queries in Natural language and database scheme as context and give SQL as output.
- Used **Python, GenerativeAI**
